
Europa-Forum Wachau 2023 - Göttweig Technical media information

CLOUD-SERVICE

With our cloud service we offer you the possibility to download information, photos and recordings of the event (Göttweig and Krems) from the website via a [link](#) to the online press area (see below).

These video files are offered in the following quality:

The video files for fast transmission in H264 with approx. 10mbit/s in the format 1920x1080px offered. So we can enable you the transmission of the recording 2-3 hours after the end of the event.

Photos: [Image Gallery](#)

A press area with live broadcast (German/English) and workstations is available at Göttweig Abbey. Opening hours: 9:30 - 13:30.

We can **NOT offer you a (camera) space directly in the Kaiserstiege due to prescribed escape routes.**

POOLFEED

You have the possibility to take over the ready-mixed camera sum of the transmission of the entire event directly in the media center as a broadcast-capable pool feed (3G-SDI) incl. ready-mixed sound. For this you need your own recording device or camcorder with 3G-SDI input.

Signal: 3G-SDI (1080p50), Audio embedded (Canal 1+2 – Original audio)

AUDIO-SUM

Furthermore, XLR press distributors are available for the audio sum.
